Lucky Number Rolls Add-On

Open the Trail Lottery

Each one chooses a different lucky number from 2 to 12. Roll two dice to select a dare each round.

If the sum = lucky number → reroll.

If the reroll is not lucky → both do the dare matching the first die.

If the reroll is lucky again → escalate for the person having to do the dare:

Kink Hike:

- Strip
- Get fully covered in chocolate sauce

Extreme Kink Hike:

- Bound spread-eagle on trail
- Blindfolded & teased for at least 5 minutes
- Obey all commands until next roll

Reverse Wardrobe Add-On

The person wearing fewer clothes must walk **second** (behind).

If the person in front looks back when it's **not time for a dare**, they must immediately **remove two pieces of clothing**.

Stay focused — or pay the price!

Mess Master Add-On

Unleash a creative mess

- Add new, extra messy ingredients — think whipped cream, honey, fruit syrup, mud, or edible paints.
- Every dare done now also has to include some kind of mess.
- Encourages playful creativity and sensory exploration, with a fun, sticky aftermath.

"Art is messy — so is pleasure."

PIT STOP Add-On

The Trail Becomes Your Playground

The person who enables this add-on picks a spot mid-trail and stages a **Pit Stop**:

- Your partner strip completely — **no clothing, no gear**
- You **restrain them spread eagle** to trees or boulders
- Add a **blindfold** and **earplugs**
- For **20+ minutes**, they are yours to play with

Do whatever you want — tease, coat, write, whisper, torment.

Afterward, you decide:

Should they wear clothing again... or continue just like they are to the summit?

Sensory Overload Add-On

Heighten every sense

- Use multiple sensory restrictions simultaneously on the person having to do the dare: blindfolds, earplugs, temperature play (cold/warm objects).
- Players explore heightened touch and anticipation while other senses are muted or overwhelmed.
- Encourages deep focus, teasing, and surrender to sensation.

"When one door closes, others open wide."

Single piece only!

Want to spice things up early?

Enable this Add-On, and your partner has to hike in just a **pre-agreed single piece of clothing** — no covering up, no switching back... until after the summit.

"Every breeze, every step, every moment — all under your watchful eye." 😊
