Level 5: Ultimate Surrender Mode

Safety & Consent Reminders for Ultimate Surrender Mode

Level 5 is intense — full surrender and total control. Before diving in, keep these vital guidelines front and centre:

- **Clear, enthusiastic consent** from all participants is mandatory — every step of the way.
- Establish a **safe word or safe signal** that can be used at any time to pause or stop the game immediately, no questions asked.
- Maintain **ongoing check-ins** whenever possible, even if nonverbal, to ensure comfort and consent.
- Respect all **physical and emotional boundaries** without exception — surrender doesn't mean ignoring limits.
- Have **hydration, snacks, and aftercare supplies** readily available at the summit and end of the hike.
- Plan for **emergency communication and exit** strategies in case someone needs to leave or receive help quickly.
- Remember: **Aftercare is essential** — provide space for gentle touch, soothing words, hydration, warmth, and emotional support after the experience.
- Trust and mutual respect are the foundation. This level is about shared adventure — not pressure or coercion.

"Ultimate surrender is a gift of trust — handle it with care."

Mixed Ultimate Surrender (One surrenders, the other controls)

"Skip the dice. Every sound of the bell means a new task."

- All optional **Add-Ons** are automatically enabled.
- No more 10-minute breaks — no chance to dodge or defer.
- Full surrender: one person follows **any** command, anytime.
- Complete creative freedom: teasing, decorating, commanding — full control from activation of the level to summit.

Ultimate Surrender Mode (Both surrendered)

- All **Add-Ons from all levels** are instantly active.
- Either can initiate any dare at any time — no dice needed.
- Both partners leave behind all clothing and cleanup supplies before proceeding.
- No clean-up or covering allowed until the return — total exposure and vulnerability.
- Expect a long, escalating journey: teasing, tension, and repeated surrender from both sides.

The Summit (Finale)

- Set up a camera to capture the **full spectacle**, if you want
- One partner is:
 - Locked in a **spread-eagle position**
 - **Blindfolded** and fitted with **earplugs**
 - Bound for a time chosen by the dominant partner
- If both surrendered:
 - The second person blindfolds and earplugs themselves
 - Then locks themselves on top of the first, sharing the full moment of surrender
